Attack the greasy cause of slips and falls in whole new way.

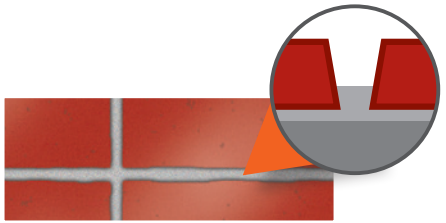

**Enzymatic No Rinse Floor Cleaner** creates a less slippery floor, which helps reduce slips and falls. Deep packed-in grease and soil build up over time, creating "grease banks". Wetting and squeegeeing grease banks merely spreads grease onto the tile, creating slippery floors. Enzymatic No Rinse Floor Cleaner attacks the grease and eliminates this deep-down cause of slippery floors. Enzymatic No Rinse Floor Cleaner is proven to increase the friction of slippery kitchen quarry tile.
