

KEEP GUESTS HAPPY WITH CLEAN, FILM-FREE FLATWARE

# Enzymatic Flatware Presoak Packets

This enzymatic formula is designed to remove proteins and other soils from flatware in convenient, dissolvable, ready-to-use packets.

- Enzyme formula breaks down stubborn food soils that dishmachines alone can't handle
- Reduced rewash means lower overall warewashing costs
- Premeasured, water soluble packets ensure proper dilution and prevent costly overuse and spillage

**DIRECTIONS FOR USE:**

1. Place one packet of Enzymatic Flatware Presoak into 3 – 4 gallons of water.
2. Place flatware into solution.
3. After soaking, wash and rinse with clean water, then sanitize with an EPA-registered hard surface food contact sanitizer.
